Audits – Training – Environmental – Consulting – Project Management

Horticulturist, Landscape Designer, Consultant and Trainer Judy Panton-Jones, owner of **JPJLANDSCAPES**, offers a professional service to corporate, large estates and residential clients throughout South Africa & abroad. Judy is a qualified Horticulturist (**Nat.Dip.Hort**), her expertise has grown & has flourished since 1985. JPJ Landscapes is also Principal Member of SALI (South African Landscape Institute).

We welcome Mthobisi Eugene Gumede, our new Horticulturist who holds a Diploma in Sustainable Horticulture and Landscaping, offering a professional service in landscape design, installation, and speciality maintenance. Our focus is building long term relationships with our clients to ensure that all their landscape and horticultural needs are accommodated. Additionally, we have a highly trained landscape technician team that are experienced in the installation of all soft and hard landscape work.

JPJ Landscapes offers a service portfolio that covers 6 distinct areas:

KEY PORTFOLIO AREAS:

1. Corporate landscape design and project management of large installation work and professional maintenance.
2. The above includes writing of tender documents, Request for proposals/quotations and overseeing adjudication and awarding of the tender process.
3. Providing an on-going monthly/quarterly consulting and auditing service to oversee professional maintenance contractors of large corporate clients and estates, focusing on a high level of horticultural excellence.
4. Residential Consultation / Retainer Work / Gardener Mentorship.
5. Residential Landscape Design & Installations.
6. Landscape Design & Horticulture School / Corporate / Public / In-house/ Government
7. Recruitment for the Green Industry (Globally).
8. Environmental Consulting & Rehabilitation.

1. CORPORATE CONSULTING/ AUDITING/ MANAGEMENT OF PROJECTS & MAINTENANCE

JPJ oversees installation work and acts as a mediator between Property Developers, Eco-Estates, Corporates, Landscape Contractors, Body Corporates, Management associations, and Government Departments. We also manage specialized maintenance contracts on a retainer basis and act as the mediator between the Client and Contractor, ensuring the highest levels of quality and Horticultural excellence. Our expertise is directed towards the landscaping industry, Environmentalists, Property

Developers, Corporates, Estates, Eco-Estates, Private Landscapers and Government Departments.

2. RESIDENTIAL CONSULTATION / RETAINER WORK

We offer a personalized on-site service to our residential clients. An initial site meeting is set up to discuss the needs of the client including site analysis and assessment. We offer project management whereby we oversee our Client's Gardeners in order to execute development work over a period of time. On completion we offer an on-going retainer service where we mentor the Gardener with a focus on specialized maintenance, as well as hands on training (if necessary). An on-going relationship with our client & Gardener is very important to us - so that the garden reaches its' full potential.

3. LANDSCAPE DESIGN & INSTALLATIONS MANAGEMENT

A combination of design skills and broad plant knowledge enables JPJLandscapes to fully utilize the available space. Starting with on-site consultations, JPJ creates a detailed design with formal drawings which includes a conceptual design or master plan and planting plans. JPJ will also prepare tender documents and administers the tender process to the adjudication of the Landscape Consultant.

JPJ manages all stages of the installation process from planning through to completion, including specialized maintenance thereafter. JPJ will appoint professional Landscape Contractors (SALI approved) to install the Design (if necessary) and will effectively project manage. When necessary, JPJ will call in sub-contractors for customized water features, large paving areas, garden lighting, sundecks, jungle gyms and irrigation systems, always ensuring that the highest standard is achieved.

4. LANDSCAPE DESIGN SCHOOL / IN-HOUSE (CORPORATE), PUBLIC, CORRESPONDENCE

The JPJ Landscape Design & Horticulture School offers a specialised range of concentrated landscape training programs, designed specifically for the development of the homeowner, Garden worker, supervisor/ manager, nurserymen, staff member of landscape designer / contractor in the field or anyone with a passion for the Green Industry.

Increasingly, clients are requesting our intensive landscape design / maintenance and management programmes to be run In-House, whereby we are able to provide personalized training for their staff component, based on the requirements of their immediate environment.

As the client, you are able to choose material from any of our in-house, public or correspondence programmes to be included in your unique and tailor-made in-house programme.

All our programmes are practical and outcomes based, ensuring that not only will the staff member's skills be improved, but to also act as an overall confidence boost to the individual and the team as a whole. Our programme's objectives are to increase the quality and standard of work output by the individuals, the team and overall, the company.

The School not merely offers In-House & Public Programmes, but our very popular Correspondence Packages affords parties the option of studying at their own pace, and from the comfort of their own home.

5. RECRUITMENT CONSULTATION / RETAINER WORK

Our Green Recruitment Division offers a professional recruitment service to the Green Industry.

Our mission as recruiters to the Green Industry is to successfully and professionally offer a unique placement service to cater to the needs of the industry and that of the individuals with suitable qualifications.

6. ENVIRONMENTAL CONSULTING & LAND REHABILITATION

JPJ now offers environmental consulting as part of the key services. We have been involved in the land rehabilitation projects, and in 2018 won the South African Landscape Institute Environmental trophy award for the rehabilitation of The Hilton Quarry.

And in 2020/2021 we were commissioned alongside a team of professionals to develop the Umzumbe River Trail, South Coast, which is 76 Km of hiking trail.

We have acted as consultants on many alien invasive species management programmes and various other environmental projects. This acts as a unique combination of landscaping, horticulture and environmental consulting services offered to each of our valued clients.
