MEET THE TEAM

Judy Panton-Jones | Owner & Principal Consultant

Judy Panton-Jones, owner of JPJ LANDSCAPES, is an accomplished Horticulturist, Landscape Designer, Consultant, and Horticultural Trainer who offers an elite, comprehensive service to corporate and commercial sites, large estates, local and central government bodies, and high-end residential clients throughout South Africa and abroad. As a qualified Horticulturist (Nat.Dip. Hort), Judy's expertise has continuously grown and flourished since 1985, positioning her as a trusted leader in the green industry.

Under her expert guidance, JPJ Landscapes operates with top-tier professional standing as a Principal Member of SALI KZN and an Associate Member of SALI GAUTENG (South African Landscape Institute).

Judy provides specialised expertise in:

- Strategic Landscape Design & Consulting: Crafting high-impact, sustainable horticultural blueprints for prestigious commercial, civic, and residential properties.

- Horticultural Training & Development: Upskilling teams and implementing best practices in modern, sustainable landscape management.
 - National & International Project Delivery: Overseeing diverse, premium-scale installations with an uncompromising commitment to environmental standards and design excellence
-

.

Lindani Protas Khoza | Horticulturist

Lindani Protas Khoza, our Horticulturist who holds a **Diploma in Sustainable Horticulture and Landscaping**, offers an elite, professional service tailored to high-end residential clients, commercial projects, government contracts, and large-scale precincts.

Lindani specialises in:

- **Bespoke Landscape Design:** Using AutoCAD to conceptualise and design sophisticated, functional green spaces across diverse sectors.
 - **Construction & Installation Leadership:** Heading up our dedicated construction team, Lindani oversees full-site implementation of bespoke landscape designs. He ensures meticulous attention to detail across both soft and hard landscaping elements from ground preparation to completion.
 - **Sustainable Landscape Maintenance:** Providing specialised maintenance services for high-profile projects, focusing on environmentally conscious, long-term ecosystem viability to ensure designs thrive for years to come.
-

Tristan Nel | Site Manager

Tristan Nel, our Site Manager who brings a results-driven approach, sharp operational oversight, and a deep commitment to sustainable landscaping to the JPJ Landscapes team. Tristan expertly directs large-scale residential and commercial projects from first ground preparation to final handover. Known for his strong leadership on the ground, he successfully coordinates multi-man crews, balances complex project schedules, and ensures strict quality control across every site.

With specialised ability in sustainable practices—including wetland rehabilitation, structural features, and the successful establishment of indigenous flora—Tristan bridges the gap between client vision and practical, environmentally conscious execution. His hands-on problem-solving and clear communication ensure that our projects are delivered safely, efficiently, and to the highest aesthetic standards.

JPJ Landscapes offers a service portfolio that covers the following distinct areas:

KEY PORTFOLIO AREAS:

1. Landscape Designs: Large scale corporate landscape design on AutoCAD which includes project management of contractor's installation work and professional maintenance.
2. Consulting Services: The above includes writing of tender documents, Request for proposals/quotations and overseeing adjudication and awarding of the tender process to a successful contractor.
3. Consulting and Auditing Services: Providing an on-going monthly/quarterly consulting and auditing service to oversee professional maintenance contractors of large corporate clients and estates, focusing on a high level of horticultural excellence. Presenting monthly site audits and site inspection report back at landscaping and Environmental committee meetings for large Estates, Homeowners Associations, Management Associations and large commercial sites and precincts.
4. High end residential Landscape Design & Installations by expert in-house team.
5. Landscape Design & Horticulture School: Training for staff/teams/managers and team leaders for Corporate / Public / In-house/ Government sectors.
6. Recruitment for the Green Industry (Globally).
7. Environmental Consulting & Rehabilitation: on-site rehabilitation of quarries, Coastal bush sites, Marine dune rehabilitation, Trails, Wetlands and Estates.
8. Residential Consultation / Retainer Work / Gardener Mentorship and On-site Training
9. Professional Landscape Maintenance of large Estates, Commercial properties, Environmental sites and high-end Residential sites.

MORE DETAIL ON THE ABOVE KEY PORTFOLIO AREAS:

1. CORPORATE CONSULTING/ AUDITING/ MANAGEMENT OF PROJECTS & MAINTENANCE

JPJ oversees installation work and acts as a mediator between Property Developers, Eco- Estates, Homeowners Associations, Corporates, Landscape Contractors, Body Corporates, Management associations, and Government Departments. We also manage specialized

maintenance contracts on a retainer basis and act as the mediator between the Client and Contractor, ensuring the highest levels of quality and Horticultural excellence. Our expertise is directed towards the landscaping industry, Environmentalists, Property Developers, Corporates, Eco-Estates, Private Landscapers and Government Departments, Homeowners Associations and Management Associations.

2. LANDSCAPE DESIGN & INSTALLATIONS MANAGEMENT

A combination of design skills and broad plant knowledge enables JPJ Landscapes to fully utilize the available space. Starting with on-site consultations, JPJ creates a detailed design with AutoCAD drawings which includes a conceptual design or master plan and planting plans. JPJ has a fully trained installation team of Landscape Technicians that are capable of landscape construction and to follow through professional landscape maintenance.

If the project is a large-scale project, we will assist our client by preparing tender documents or RFI/RFP process through adjudication and managing of installation and post maintenance. JPJ will appoint professional Landscape Contractors (SALI approved) to install the JPJ Design and will effectively manage the project. When necessary, JPJ will call in sub-contractors for customized water features, large paving areas, garden lighting, sundecks, jungle gyms and irrigation systems, always ensuring that the highest standard is achieved.

3. LANDSCAPE DESIGN & HORTICULTURE SCHOOL

IN-HOUSE (CORPORATE), PUBLIC, IN-PERSON AND CORRESPONDENCE PROGRAMS:

Public Courses - The JPJ Landscape Design & Horticulture School offers a specialized range of concentrated Horticultural & Landscape training programs, designed specifically for the development of the Landscapers,

Garden workers, supervisor/ team leaders/Landscape Technicians/ Managers, Nurserymen, Staff member of landscape designers / Contractors/ Landscape entrepreneurs/ Environmentalists /Domestic Gardeners and Garden enthusiasts or anyone with a passion for the Green Industry.

- In-House Courses - increasingly, clients are requesting our intensive Horticulture, landscape design / maintenance, and management programs to be run in-House and in-person, whereby we can provide personalized training for their staff component, based on the requirements of their immediate environment.
- As the client, you can choose material from any of our in-house, public or correspondence programs to be included in your unique and tailor-made in-house program.
- All our programs are practical and outcomes based, ensuring that not only will the staff members' skills be improved, but to also act as an overall confidence boost to the individual and the team as a whole. Our program's objectives are to increase the quality and standard of work output by the individuals, the team and overall, and the company.

The school not merely offers In-House & Public Programs, but our very popular Correspondence/On-line Packages affords parties the option of studying at their own pace, and from the comfort of their own home.

4. RECRUITMENT CONSULTATION

Our Green Recruitment Division offers a professional recruitment service to the Green Industry. Our mission as recruiters to the Green Industry is to successfully and professionally offer a unique placement service to cater to the needs of the industry and that of the individuals with suitable qualifications.

5. ENVIRONMENTAL CONSULTING & LAND REHABILITATION

JPJ offers environmental consulting as part of the key services. We have been involved in the land rehabilitation projects, and in 2018 won the South African Landscape Institute Environmental trophy award for the rehabilitation of The Hilton Quarry.

And in 2020/2021 we were commissioned alongside a team of professionals to develop the Umzumbe River Trail, South Coast, which is 76 Km of hiking trail.

We have acted as consultants on many alien invasive species management programs and various other environmental projects.

This acts as a unique combination of landscaping, horticulture and environmental consulting and Training services offered to each of our valued clients.

6. HIGH END RESIDENTIAL CONSULTATION / RETAINER WORK

We offer a personalized on-site service to our high-end residential clients. An initial site meeting is set up to discuss the needs of the client including site analysis and assessment. We offer project management whereby we oversee our Client's Gardeners in order to execute development work over a period of time. On completion we offer an on-going retainer service where we mentor the Gardener with a focus on specialized maintenance, as well as hands on training (if necessary). An on-going relationship with our client & Gardener is very important to us - so that the garden reaches its' full potential.

7. SPECIALISED PROFESSIONAL LANDSCAPE MAINTENANCE

Our specialized landscape maintenance management of sites provides attention to detail programs for:

- High-end residential properties
- Corporate and commercial sites
- Estates
- Government properties
- And environmental sites.

Our qualified team are all Horticulturists, and our on-site teams are trained Landscape Technicians. They understand landscape design, construction, and plant care.

Our focus is to maintain self-sustaining spaces where biodiversity is of utmost importance.

We not only care for and nurture the soft landscaping but also the hard landscaping elements of the site.

Our long-term goal is to bring every garden to its full potential – fully grown, healthy, resilient and ecologically balanced.
